C E

• Device Connection

1. Before you start the app, we suggest connect your Android device's WiFi with EZCast Wireless Music Box (SSID displaying as EZMusicxxxx). However, if you skip WiFi connection first, the EZCast will allow you to connect to the Wireless Music Box in app.

2. When you opened the app, you can use "Demo mode" or "Find device" to start over to enjoy our features.

3. Click "Find device" to discover EZCast Wireless Music Box and start to cast.

4. If you didn't connect EZCast in the beginning, our android app will automatically list the EZCast Wireless Music Box so that you can click it and connect it directly.
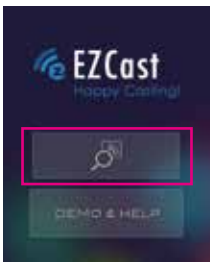

5. You will be able to find another EZCast installed phone if they are under the same network, it's a new feature to enhance your mobile phone to an EZCast Wireless Music Box.

6. We strongly recommend you to establish EZCast Wireless Music Box WiFi with your home/company network to keep internet surfing since your mobile device's WiFi is linking to EZCast Wireless Music Box.
